BOTANISTS and COLLECTORS are reminded that they will always find at No. 45, Frith-street, Soho, one or more large boxes of Books for selection at 6d. each, other boxes at 1s. each, and so on. These Books, although scarcely warranting the cost and labour of cataloguing, are well worth hunting over; and William Pamplin hopes that his Botanical friends from the country, when visiting London, will favour him with a call for that purpose. Many good Pamphlets, local Catalogues, and bound Books, some of unusual occurrence, will be found amongst them.
